WELCOME TO TCP

TCP (Technical Consumer Products) is a global, innovation-led manufacturer with a long-standing reputation in domestic and commercial lighting, and a rapidly expanding presence across Smart technology, heating and electrical solutions. Trusted by partners worldwide, TCP delivers products that combine performance, efficiency and forward-thinking design.

Alongside our extensive lighting portfolio, TCP continues to gain market share through a growing **Smart** range spanning **Heating**, **Lighting** and **Electrical** categories. Designed to meet the evolving needs of modern homes, commercial spaces and connected environments, these ranges offer strong commercial relevance and future-focused growth opportunities for our partners.

Our offering is further strengthened by complementary **Air Care**, **Cooling** and **Dehumidification** solutions, enabling retailers, wholesalers and distributors to access a broader, more profitable product mix from a single, trusted supplier.

Founded in 1993 in Aurora, Ohio, TCP was built on the belief that the quality of light equals the quality of life. That principle continues to guide our development of reliable, energy-efficient solutions for residential, commercial, industrial and infrastructure applications.

With full control over design, development, manufacturing and distribution, TCP ensures consistent **quality**, **compliance** and **dependable** supply. This vertically integrated approach allows us to respond quickly to market trends while delivering long-term value and confidence to our trade partners.

We welcome the opportunity to work with **retailers**, **electrical wholesalers** and **distributors**, offering scalable ranges, dependable supply and a collaborative approach to sustainable growth.
